SUMMARY

Full-Stack Web Developer with a background in customer service ensuring that customers are always fully satisfied with the product and service they receive. Possessing strong analytical problem solving skills and adaptableness having worked alongside teams to efficiently create and develop mobile-first applications with a pronounced user experience.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, jQuery, Express.js, Handlebars, React.js, Node.js, MySQL, MongoDB
Applications: Github, Heroku, Postman, MySQL Workbench, Visual Studio Code, Xcode

PROJECTS

Fetch | **Github: github.com/raise-da-woof/fetch | Live: fetch-woof-312.herokuapp.com/**
- Fetch allows users the ability to match their pets with other pets so that they can set up playdates and allow their pets to be more socially active.
- My responsibilities include working on the front-end using React.js and redux. I would also help out backend with working with the database.
- Tools used: React.js, Redux, CSS3, JS, MongoDB, Mongoose, Bcrypt.js, Passport, Express.

Home Body | **Github: github.com/Alex-Bailon/health-app | Live: health-app-2020.herokuapp.com/**
- Home Body is a health app that allows users to keep track of daily calorie, fat, sugar, and carb intake with all information being displayed in a doughnut chart.
- My responsibilities include working on backend server, route calls, user login using MySQL, and getting data to display on charts.
- Tools used: HTML5, CSS3, JS, Chart.js, MySQL, Sequelize, Bcrypt.js, Passport, Express.

Flyte | **Github: github.com/kyleres/Finance_App | Live: kyleres.github.io/Finance_App/**
- Flyte is a finance app that gives users the ability to keep track of their investments.
- My core responsibilities include working on the JS to get API calls and bring the information to the page. Was responsible for bringing the front and back end together.
- Tools used: HTML5, CSS3, JS, jQuery, Chart.js, Materialize, Github

Burger App | **Github: github.com/Alex-Bailon/burger | Live: frozen-retreat-67912.herokuapp.com/**
- An app that allows the user to input their favorite burgers, stores them into an MySQL database and with the click of a button "devours" the burger (update MySQL database).
- Developed this full stack app from scratch using the Model-View-Controller (MVC) model.
- Tools used: Express.js, node.js, ORM, MySQL, Handlebars.js, Materialize, Heroku

EXPERIENCE

Software Developer   2020 | Freelance
Fusion92   Chicago, IL
Create and develop responsive emails and landing pages using MJML. Use Email on Acid to test and ensure generated HTML is fully responsive on all types of operating systems and email clients. Work with other departments to ensure we go above and beyond the clients expectation.

Hospital Services Tech II　　　　　　　　　　　　　　　　　　　　2018 – 2019
LifeStream Blood Bank　　　　　　　　　　　　　　　　　　　　Rosemead, CA
Managed, processed, transported and transferred blood products within a timely manner to ensure all hospitals were satisfied with the service they were receiving. Audited and ensured proper documentation were properly filled and compliant to FDA standards.

Service Banker　　　　　　　　　　　　　　　　　　　　　　2017 – 2018
Bank of the West　　　　　　　　　　　　　　　　　　　　　Alhambra, CA
Built rapport with customers while taking consideration of time. Ensured accurate customer transactions (deposits, withdrawals, wire transfers, ect.). Worked with backoffice to ensure customer accounts were up to date and to uncover detailed information about the customers account.

Fine Jewelry Clerical　　　　　　　　　　　　　　　　　　　2016 – 2017
Macy's Inc.　　　　　　　　　　　　　　　　　　　　　　　Acadia, CA
Received and merchandise inventory, ensuring all jewelry is properly displayed and organized and documents are accurately filled and in the proper location. Work with the sales team to provide accurate information about products.

Customer Service and Sales Representative　　　　　　　　　　2015 – 2016
Wells Fargo Bank, N.A　　　　　　　　　　　　　　　　　　Alhambra, CA
Fulfilled the role of both teller and banker while providing excellent customer service. Ensuring all customer information is entered accurately while opening new accounts, cross-selling consumer and business products, and maintaining customer accounts.

Assistant Store Manager　　　　　　　　　　　　　　　　　2012 – 2015
PLS Financial, Inc.　　　　　　　　　　　　　　　　　　　Chicago, IL
Developed new and current employees. Made weekly schedules, managed payroll and completed store audits. Managed cash vault ensuring all cash is accounted for. Approved customer transactions. Kept in constant communication with the store manager with any new updates.

EDUCATION

Bootcamp Certificate: NorthWestern University, Evanston, IL
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.
